WelcomeFeaturesInvite UsersComplete

Welcome admin!!

You are about to start building a winning team with Agile performance management in UpRaise.

Let us complete the setup, real quick.

Company name*

You can always change this later on.

Next

- Company name is used in UpRaise at different places such as OKR Hierarchy, Company Directory etc.
- If our magic didn't work & we guessed your company name wrong, go ahead and change it!

What do you want to use UpRaise for?

Objectives & Key Results

- Goals management at its best.
- Use OKR based features in UpRaise.
- Create Company, team & individual OKRs.
- Align them, visualize hierarchy.
- Make progress predictably.

✓

Continuous Feedback

- Small & frequent bursts of feedback.
- Give, Request - share with all or a few.
- Tie your feedback to Jira issues.
- Use this as reference in review forms.

✓

Review Forms

- Use different templates for review forms.
- Incredibly flexible form builder.
- Create once distribute multiple times.
- Keep an eye on the overall progress.
- Jira issues, continuous feedback quick reference.
