Gears issue export permission

We will support datacenter in the next version, and the app will change the subscription mode.

Affected by this, the app you use will need to subscribe every year, and we will also allow you to use the latest version of the app

For some information we want it to be secure, we just want it to be browsed in jira and not printed or exported.
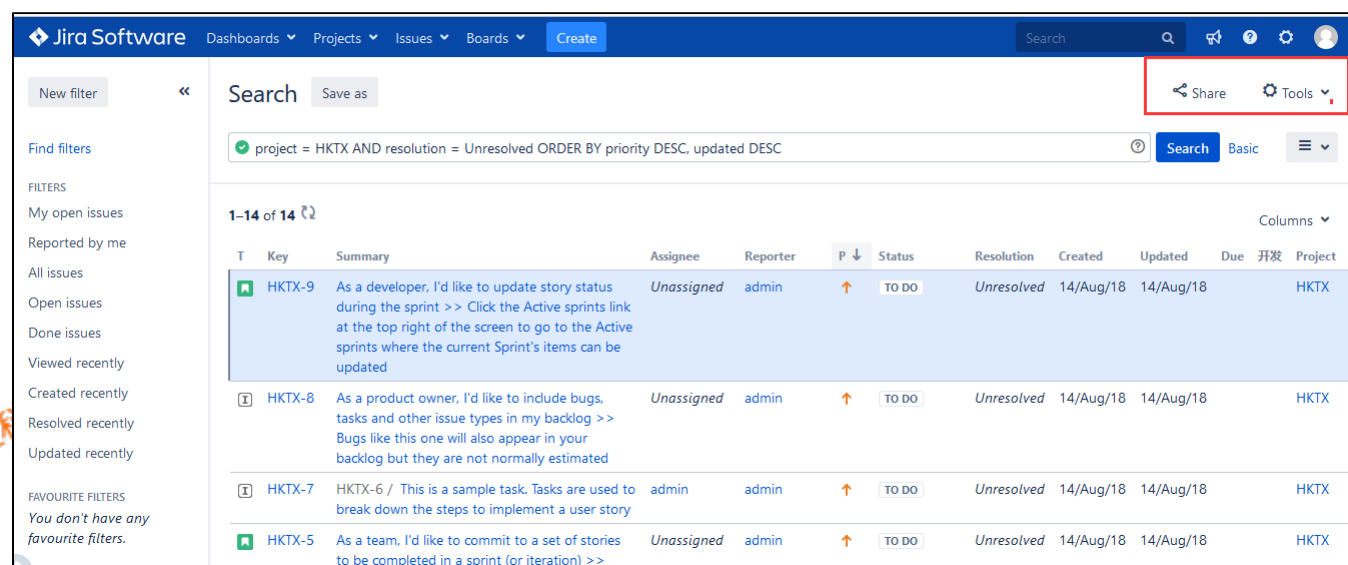

This plug-in can perform the printing or export operations by setting the authorized person.

- User without permission can not export on the issue navigation page.User without permission can not export on the issue page.
- When users without permission can export the issues,403 Forbidden will display on page through URL
- We can configure users or group whom can export

note:

If one user export is disabled, the list of issue displayed on the page by other systems such as confluence will not be displayed
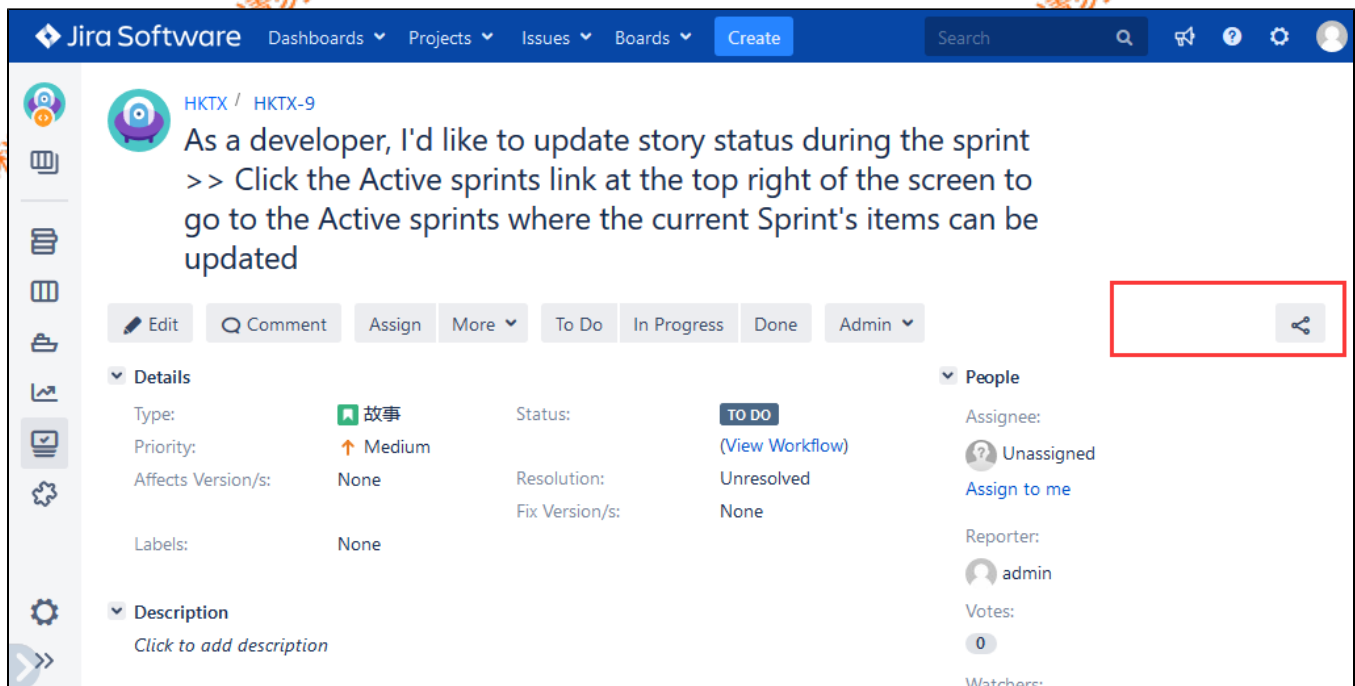

**"Export" button is hiden on the navigation page.**

"Export" button is hiden on the issue page.

Users can not export the issues through URL

We can configure users or group whom can export

Add-ons   User management   Latest upgrade report   System

Who Can Export

○ : Any user can
○ : Any user can not
○ : Given user and group

Which user can export | Input username,multiple users are separated by comma | save

Which group can export | Input group name,multiple groups are separated by comma | save

If one user export is disabled, the list of issue displayed on the page by other systems such as confluence will not be displayed

00-页面中使用JIRA问题和过滤器显示需要的问题列表

Created by gears, last modified by 翁磊 20 minutes ago

本月内Gears项目下完成的Story情况

Key	Summary	Type	Created	Updated	Due	Assignee	Re

⚠ Jira project doesn't exist or you don't have permission to view it.
View these issues in Jira

方法

- 通过页面中加入"JIRA问题和过滤器"宏
- 在弹出的界面中选择搜索，在右边的框中填写JQL语句即可（当然，如果我们在JIRA中已经有适合的JQL在这里可以直接填写 "filter= 过滤器名字或者ID"）

插入Jira问题/过滤器

搜索   filter=11000
创建一个新的事务   使用可能关键字、搜索JRL、JIR相键、JQL组成文本进行搜索
最近浏览
                 ☑ 键值   摘要
其他 JIRA 内容   ☑ 🔲 GEARS-310   经理需要发起一个项目录编
Jira 图表

显示结果

当然，如果我们获得了结果，但我们想在页面列表中显示我们需要的字段，此时我们可以在编辑这个宏，在它的右下角点开"显示操作"，在这里我们可以在待显示的列中我们需要显示的列即可

激活 Windows
