

Gears Lock manager for jira

We know that some custom fields in the system are locked by plug-ins and cannot be modified, but sometimes we do need to. This plug-in can be controlled accordingly. All custom fields can be unlocked or locked.

1. Jira Administrator: Jira Administrators can config it!
2. Jira System Administrators: Jira System Administrators can config it!
3. Locked: Anybody can't config it!

Some custom fields are controlled by some plug-ins, and it is not recommended to change its lock level!

CustomField					
ID	name	type	Jira Administrators	Jira System Administrators	Locked
11000	Approvals	Approvals	☐	☒	☐
11006	Approvers	User Picker (multiple users)	☐	☒	☐
