Gears Lock manager for jira

We know that some custom fields in the system are locked by plug-ins and cannot be modified, but sometimes we do need to. This plug-in can be controlled accordingly. All custom fields can be unlocked or locked.

1. Jira Administrator:Jira Administrators can config it!
2. Jira System Administrators:Jira System Administrators can config it!
3. Locked:Anybody cant config it!

Some customfields are controlled by some plug-ins, and it is not recommended to change its lock level!

ID	name	type	Jira Administrators	Jira System Administrators	Locked
