

# JIRA附件目录大小

JIRA文件目录是指用于存放JIRA业务数据的目录，比如安装的插件，生成的系统日志，正常的每日数据备份以及上传的附件等。

文件目录JIRA默认地址为：`/var/atlassian/application-data/jira/`

如未按默认目录安装，可在系统中进行查看

系统管理员登录到后台：系统→系统信息→文件路径查看

| File Paths                     |                                                                          |
|--------------------------------|--------------------------------------------------------------------------|
| Location of Jira Local Home    | /var/atlassian/application-data/jira                                     |
| Location of Jira Shared Home   | /var/atlassian/application-data/jira                                     |
| Location of entityengine.xml   | file:/opt/atlassian/jira/atlassian-jira/WEB-INF/classes/entityengine.xml |
| Location of atlassian-jira.log | /var/atlassian/application-data/jira/log/atlassian-jira.log              |
| Location of indexes            | /var/atlassian/application-data/jira/caches/indexesV1                    |
| Location of attachments        | /var/atlassian/application-data/jira/data/attachments                    |
| Location of backups            | /var/atlassian/application-data/jira/export                              |

如果需要进行数据迁移，一般可以将文件目录下的data, logos 目录进行迁移即可

迁移需要了解附件文件的大小，可以通过以下命令获得

```
du -sh *
```

```
[root@iZbp17d7id4l3nmsj1d7-dima14 ~]# du -sh *
696K  analytics-logs
428K  caches
24K   customisations
8.0K  data
3.8M  database
4.0K  dbconfig.xml
80K   export
96K   import
5.3M  log
4.0K  logos
352K  monitor
267M  plugins
11M   tmp
```
